high boots of the natives of the big timber.

But if they were picturesque, the musicians were more so. They were the band of the Fifth regiment of the Royal Highlanders, secured for the occasion as a tribute to Lena's Scotch blood, which Mrs. Stillman has announced is tinged with Canadian Indian strains. Their garb, too, helped splash the wilderness camp with gaudy color as they stood erect in their scarlet tunics and Black Watch kilts to play the wedding march.

The whole countryside made the affair a holiday from daybreak until long after midnight, hours after Bud and his bride slipped away from the festive crowd and began the forty mile drive to Grande Mere, where they were to take a train for Montreal late at night.

**Bud and Bride Going to Europe.**

Bud and Lena plan to sail for Europe on Aug. 1.

Through the wood trails up the St. Maurice, now filled with logs and over the narrow road to La Tuque there came this morning hundreds of natives to see the ceremony which was to join one of their kind to the Prince of Charmers of the world to them the unknown world beyond.

So today the deeply tanned and work-worn Mrs. Lillie Wilson, of Scotch-French-Canadian and Indian ancestry, whose rough hands attest to her many years of labor in these primitive wilds, stood in the receiving line and in strange patois replied to the French of her kind. With her stood her new kin by marriage, including Mrs. H. P. Davidson Sr., and Bud's sister, the former Anne Stillman, now Mrs. H. P. Davidson Jr.

The entire ceremony, directed by Mrs. Stillman, went through as smoothly as clockwork. A few minutes before 4 p. m. she gave a final survey to the altar, where she, in bare legs, as usual here, had been directing the final touches, and dashed to her room. She appeared later in a pink frock and flesh-colored stockings and wearing a wide brimmed black hat. By that time at least 300 guests had arrived. They were chiefly French-Canadian from the hundred mile stretch of the St. Maurice which Mrs. Stillman treats as her domain and whose inhabitants she treats as her people.

**Lena Wears Paris Gown.**

At 4 the bride—in a Paris made gown—and the bridegroom knelt before Father L'Ami, and in French responded to the ritual of the Catholic ceremony.

There was no mass—only the reading of the marriage ritual of the Catholic church.

"James Stillman," Father L'Ami said, "do you take Lena Viola Wilson as your wife?"

"The 'yes' was so faint that it was scarcely heard. The same question was put to the bride, whose answering answer likewise was not heard. Then came the ceremony of the ring. The priest turned to the altar and the prayer was uttered. "There can be no happiness in marriage," murmured the priest, "unless you lead a Christian life."

**Photographer Falls Off Fence.**

In the middle of the prayer a photographer fell off the long fence from which he was snapping the scene. The guests started to snicker as the young man put himself and his camera together and climbed up to his old position.

The Rev. Father Norman, English speaking curate of Grande Pile, invoked the prayer of blessing in English. Dozens of wedding presents were received, but most of them remained unopened and will be sent directly to New York for the inspection of the newlyweds there upon their arrival tomorrow.

The scene here at the banquet following the wedding ceremony defied description. Bearded logging men sat at tables with men and women of great wealth and high social standing. The post-wedding celebration will, for the natives, last just as long as any one

## Poland Fears Invasion as Famine Breaks Out in Russia

(Chicago Tribune Press Service.)

WARSAW, Poland, July 26.—Famine has broken out at Minsk, Kiev, and Kharkov, Russia. All the food shops have been surrounded by anxious mobs, while the dealers are endeavoring to hide their reserves.

The people blame the soldiers sent by the government for the food shortage. For weeks the Red army has been carrying on maneuvers on the Polish border along the Dnieper and Dniester rivers. They bought up all the food reserves.

The Polish government fears hunger will drive the desperate masses into Poland. This anxiety has been increased by the reports from Pleskovo, where the soldiers and the people have adopted a resolution asking Moscow to order them to "march on Poland and liquidate the White terror."

Warsaw fears that unless the food

chooses to remain and celebrate, it was announced. Everything that the aid and New York could offer in the way of refreshment had been gathered at the Stillman lodge for the delectation of the wedding guests.

**Four Trucks of Liquor.**

Four truckloads of champagne, sparkling burgundies, red cap, white cap and pink cap, favorite drinks of French Canadians; liquors of various variety, vin blanc and rouge, Beaujolais, Chateau and Nuits St. Georges, not to mention such mundane liquors as Scotch and rye whisky, gins, beers, and ales, were transported through the woods for the occasion.

The wedding cake, "magnifique," four feet tall, loaded amazingly, and full of luscious ingredients, was concocted by Chef Hunter of the Stillman yacht, who has been busy for days making it at the Wilson home, down the river from Grand Anse.

There the chef, assisted by the Stillman regular chef and whole culinary staff, superintended also the roasting of meats and the concocting of such delicacies as it would take pages of a cook book to describe.

## SPINE REMADE, GIRL, 9, STARTS WALKING AGAIN

For the first time in three months Collette Beck, 9 year old, of 601 North Leamington street, was able to walk yesterday.

During all that period she had lain, all but motionless, in bed. A plaster cast, extending from her hips to her neck, had held her body rigid while a bit of bone that a surgeon had taken from her left leg knitted itself firmly into her spinal column.

About a year ago Collette's spine was injured by a fall while roller skating and tuberculosis developed in the injured vertebrae.

Late in April Collette was taken to the Norwegian-American hospital. Dr. Fred Mueller cut out the diseased bone, replaced it with a carefully fitted piece of her left tibia and incased her in the plaster cast.

"She is in fine condition, and, while she took only a few steps, Collette now can walk as straight as any other child," said her father, Harry J. Beck.

the whole United States and when an application is made for a license the person must wait for one of the three to go from Washington to wherever the applicant lives to give the tests.

The inspectors are Robert Glad, now in Chicago to investigate the triple fatality; Robert Lees, and Ralph Lockwood.

Coroner Wolf said the airplane menace is now becoming as serious as the automobile death and injury list, which he said in a measure is due to there being no licensing system of drivers. Deputy Rothenberg called attention to recent sales of disabled planes by the government, his view being that such planes, if unfit for governmental use, are tenfold as unfit for commercial use, and should be used for target practice.

Major Kemp, chairman of the city

He said he would ask the governor to include in the call for a special session of the legislature in the fall, a proposal for a law to make the U. S. laws apply in Illinois for all fliers, even though they never cross a state line.

He suggested to President Cernak that the county board impose stringent rules for flying in the parts of the county not included in municipalities.

## WOMAN, RUNDOWN BY BETTY BORDEN, SUES FOR \$15,000

(Picture on back page.)

Miss Betty Borden of 1080 Lake Shore drive, daughter of John Borden, millionaire sportsman, who is on a yachting cruise in the Arctic, was sued for \$15,000 in the Superior court yesterday by Mrs. Gertrude Hakanson of 1402 Sherwood terrace, who was struck by the debutante's automobile April 30 at Schiller and North Clark streets.

Miss Borden was arrested after the accident and later discharged. Attorney Ernest Stanley Hodges, who filed the praecipe, said his client was struck while alighting from a street car and that she received bruises and a sprained ankle.

Coroner Wolf said the airplane menace is now becoming as serious as the automobile death and injury list, which he said in a measure is due to there being no licensing system of drivers.

Deputy Rothenberg called attention to recent sales of disabled planes by the government, his view being that such planes, if unfit for governmental use, are tenfold as unfit for commercial use, and should be used for target practice.

# BRITISH CABINET DECIDES FINAL NAVAL DEMANDS

London Papers Take Up  
Fight on 70 Cruisers.

BY DAVID DARRAH.  
(Copyright: 1927: By The Chicago Tribune.)  
LONDON, July 26.—The fate of the Geneva naval conference was decided today by the British cabinet. The cabinet's decision whether W. C. Bridgeman and Lord Cecil will return to Switzerland with a modified mandate on the cruiser impasse, upon which the continuance of the conference depends, will be announced in a statement publicly in the house of commons tomorrow or Thursday.

This was announced today by Winston Churchill, leader of the house during Prime Minister Baldwin's absence, in reply to a question by the laborite, J. R. Clynes.

No limitation or compromise was given out tonight on the result of today's cabinet meeting, the whole being left until the statement in the house of commons.

Genesee are conflicting.

It was stated unofficially tonight that as a result of today's cabinet discussions the British delegates will return to Geneva with leave to make further modifications, not of an extensive nature, however, to meet the anticipated American objections to the Anglo-Japanese compromise. Practically the main point on which the cabinet has been in consultation with the delegates is the armament of small armed protection cruisers. Other politicians, however, see in the extended conference of the British delegates and the cabinet evidence that the big navy men are victorious and Britain will stand pat on her present demands.

The British demands, which are not acceptable to America, are for a limited number of large cruisers carrying 4 inch guns and a vast tonnage of smaller cruisers with 6 inch guns.

Memorandum to Washington.

No official statement was made today regarding the reported order to restrain the British delegates to Washington against anti-British propaganda, and it is suggested that it was merely a subject of informal conversation.

The diplomatic correspondent of the Westminster Gazette states:

"I understand that the anti-British campaign conducted by some of the American newspaper correspondents at Geneva has been inspired not by Washington official circles, but by experts of the big steel interests, who view the conference largely from the same angle as the American big navy group."

A general chorus of protest against what is called here distortion of the British plan goes on officially and in the press today. It is understood the foreign office is preparing a full British thesis for publication.

The British charges that the American press was misrepresenting was given an unpleasant jolt when even their own press contested the admiralty's demands. The London Daily News, for instance, says the admiralty's estimate for seventy cruisers is wrong.

Says Fifty Cruisers Are Enough.

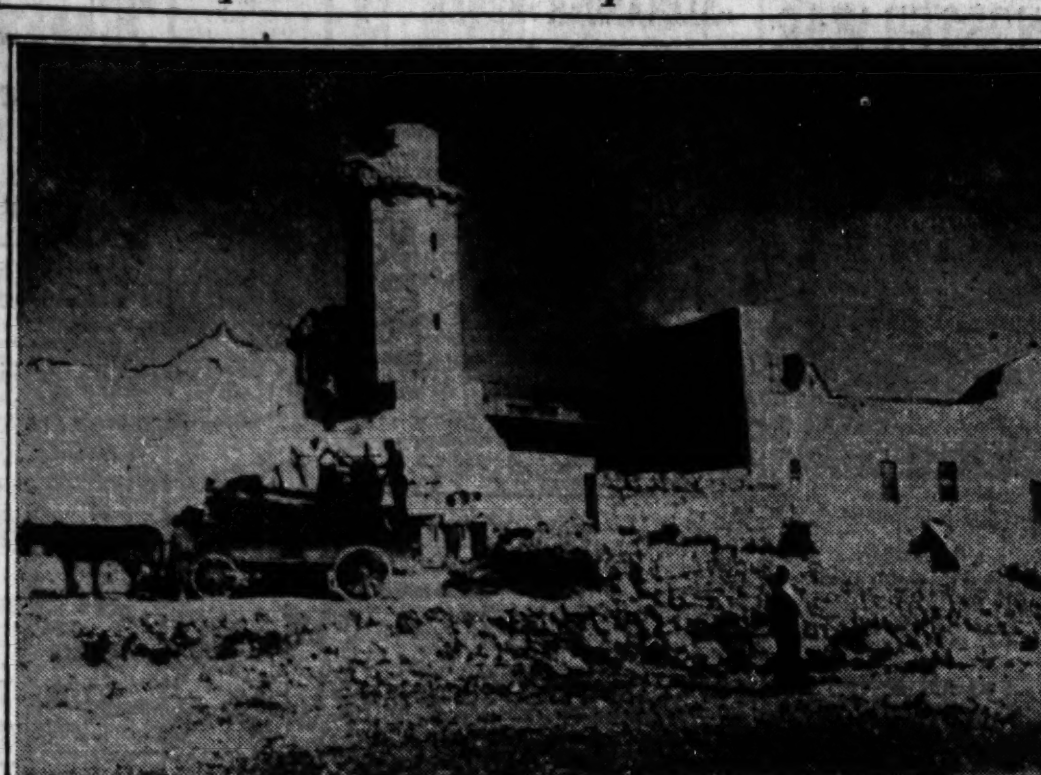

"On the eve of the general election four years ago it was estimated that the future cruiser requirements were fifty-two ships. This figure is now raised to seventy, though no reason is assigned for the big increase," says the News.

"At no period in our naval history did we possess such a huge fleet of cruisers. Fifty are enough and would conform with the American 400,000 tonnage plan."

The News berates the admiralty's estimate, saying that Japan's sympathy has been lost by the "remarks and strategy of our naval authorities, and we now are completely isolated."

Admiral Field was taken to a hospital on his arrival here today and will be replaced at Geneva by Rear Admiral Pound.

# FORMER FOLLIES GIRL SEEKS DIVORCE FROM NORVAL C. DOUGLAS

Mary Robbins Douglas, former Follies beauty and once the wife of Cutler H. Robbins, filed suit for divorce yesterday against Norval C. Douglas, advertising man, to whom she was married on Aug. 25, 1924, after they were arrested following a raid on her apartment.

This is Mr. Douglas' third divorce suit. His wife has been in headlines as often through her bitter litigation with her former husband, who is the son of George B. Robbins, retired vice president of Armour & Co.

Their love, alleged to have been devoted before their marriage, was not so tranquil afterward, the divorce bill, filed by Attorney Cecilia M. Skrentny, discloses. Shortly after the ceremony, it is charged, Douglas began the excessive use of liquor.

Attorney Skrentny obtained an injunction before Judge Harry Fisher to restrain the Fidelity Trust & Savings bank, Wilson avenue and Broadway, from honoring checks on Douglas account so that his deposits might be attached for alimony.

He was replaced at Geneva by Rear Admiral Pound.

# SEES PARLEY PERILED

BY JAY ALLEN.  
(Copyright: 1927: By The Chicago Tribune.)  
PARIS, July 26.—"If the British admiralty insists on Japan and America building the character of ships best suited to the foreign policy of the British empire, the Geneva naval limitation conference will fizzle," said Fred A. Britten of Chicago, ranking member of the committee on naval affairs of the house, today.

"The tax burdened world is expecting an agreement at Geneva and only the British insistence on supremacy of the sea can prevent one."

"Perhaps Great Britain accepted President Coolidge's invitation to this conference with the intention of gaining unchallenged predominance of the seas through its great merchant fleet and, failing in this, will let the conference blow up."

17 to 1 Advantage Over U. S.

"When one realizes that the British flag flies over 950,000 tons of merchant ships having a speed of 17½ knots or faster, while but 180,000 tons of such ships are under the American flag, it is immediately evident that England, by mounting these ships with six inch guns, would have supremacy over the United States in a ratio of seventeen to one in converted cruisers and a

# BREAD AND WATER DIET GIVEN 100 IN BATTLE AT JAIL

Confinement in their cells, without the usual exercise privileges, and a bread and water diet for the next week, was the punishment decided on last evening by Warden Edward J. Fogarty of the county jail for the 100 or more prisoners on the fourth tier of the jail. They are to be punished because some of their number severely beat William Decker, 19, and David Moylan, 27, who were to be state witnesses against Walter Michael, 25, a pal, in fifty or more robberies.

The attack occurred yesterday in the bullpen just before the men were to go to court for trial. Decker and Moylan said that the attack was so general that they could not identify their assailants and because none would tell who were the ringleaders all are to be punished alike.

Michael late in the day was convicted by a jury and sentenced to one year to life in the penitentiary by Judge Stanley Karkowski, who refused a new trial. Decker and Moylan, who did not testify although willing to do so, were given sentences of from one to twenty years each. The men were involved in a series of drug store robberies.

# FEAR GENEVA DEADLOCK

Washington, D. C., July 26.—(Special.)—Washington has about resigned itself to failure at Geneva and more surprise would be expressed in this city if an agreement for naval limitation was reached at the tripartite conference than if the conversations ended in a deadlock. Officials are prepared, however, to study any proposal that the British government may make when its delegates return to Geneva, but it was explained that little consideration will be given to any proposal unless it provides for actual limitation of armaments and adequate defense for the United States.

Delay on the part of the British delegates in returning to Geneva and the constant repetition in London of charges that the American press has grossly misrepresented the British position in its stories of the parley have convinced many state and navy department officials that Great Britain had no intention of receding from her demands for superiority on the seas.

The American press was praised at the state department today for its intelligent presentation of the news from Geneva.

State department officials stated also that Sir Esme Howard, the British ambassador, has not officially protested to this government against alleged misstatements in the American press.

# Col. Carrington Is Sued by Lawyer for Fees

Col. Edward C. Carrington, millionaire attorney of Chicago and New York, was sued for \$20,000 in the Superior court yesterday by Attorney Paulus P. B. Koenig. # BUTLER WARNS OF WAR PERILS IN PROPAGANDA

Urges U. S. and Britain  
Outlaw Aggressors.

(Chicago Tribune Press Service.)  
(Copyright: 1927: By The Chicago Tribune.)  
LONDON, July 26.—Tactics by which the nations are misled in times of international crises were scored by Lord Birkenhead and Dr. Nicholas Murray Butler, president of Columbia university, tonight in discussing the conflicting forces back of the Geneva naval conference, before American editors, guests at the Pilgrims' banquet.

"It was easy to be friends when our young men were treading the roads and bloody trenches," declared Lord Birkenhead in low, impassioned tones, "but it is the function of a society like this to permit one to speak plainly."

Tells of British Need.

"This country is undergoing the greatest industrial difficulties of any nation, since the armistice, and you Americans will do well to realize this. From industrial troubles and national indebtedness we have never sought escape."

"I will not argue whether the empire always has been right or wrong. But the empire is here today and we cannot fall in our trust any more than you would fall under similar circumstances. There is no country in the entire world in this position. It is not fighting vessels we want, but the ships which the empire demands for sustenance."

Butler Warns of Noises.

"Beware of noise," declared Dr. Butler, "when hearkening for opinion from America. Listen for the silences. The voice of our millions in the towns and cities is not always found on the front pages of the most widely circulated newspapers."

"Surely those who lived through the four dreadful years and now see the world staggering under the burden of the aftermath will have the courage to make sure that it does not happen again. We know governments have maneuvered peoples into psychological positions of war."

"It is for the United States and Great Britain themselves to renounce war as an instrument of international policy and cease thinking in terms of fighting. Public opinion rarely comes first; agreements afterward."

"We have definitely defined an 'aggressor nation.' It is a nation which, having agreed to arbitrate disputes, resorts to force without first respecting such arbitration. We can agree not to aid the aggressor. If that holds, how can war flourish?"

Dr. Butler was supported by Wade

# SURGEONS OPERATE ON MYRON T. HERRICK 2D TIME IN TEN DAYS

Cleveland, O., July 26.—(AP)—Myron T. Herrick, United States ambassador to France, was reported tonight by surgeons attending him to be "making satisfactory progress" following his second operation today within the last ten days.

No serious results are feared, unless complications set in, hospital attendants said, although they admitted that today's operation was a major one in character.

The operation was expected to delay the 72 year old diplomat's return to France for an indefinite period.

Ambassador Herrick will receive Col. Chas. A. Lindbergh, the trans-Atlantic flyer, in the hospital when he comes here next week.

H. Harris, editor of the Observer of Charlotte, N. C., representing the visiting editors, who reported that the anti-British propaganda in America was not founded upon fact. In a mid-western metropolis anti-British propaganda, he said, was used as campaign propaganda, and was a one horse affair.

## CRISIS IMPENDS IN SOUTH AFTER FLOOD SUBSIDES

Credit and U. S. Aid May  
Avert Disaster.

(Continued from first page.)

The inundated area. Your Louisiana creole, a home-loving sort, is only too glad to move back into his home before the mud has quite dried on the levees. On more than one occasion, the restraining hand of authority was needed to keep the over-anxious from returning before the "danger past" bulletins were issued.

The Acadians immortalized in Longfellow's "Evangeline" were among those driven from their homes, and they still are held back by the flood waters. And the devotion of these folk to their hearths has never waned.

Some Lands Still Flooded.

Many of those going back, even now, are not actually entering their homes, for many acres are still under water and more fortunate neighbors are on the outskirts of the inland lakes are taking in families to wait the complete recession of the flood.

In this immediate future, not even the gaps in the levees have been closed, and no move has been made toward closing them. The waters slosh through, sluggishly. It is not a slight to provide incentive to those who would woe the soil behind the high dikes.

The state will do what it can in lifting the tax burden from those stricken parishes, but just what that will be no one can say definitely. School, levee, and other public improvement bonds are outstanding, guaranteed by taxation. But if the taxes cannot be paid, what then?

This week Gov. O. E. Simpson named a commission of 113 men to study this problem of local bond issues whose security seems to have fallen flat. This commission will meet here Aug. 2 to shape its recommendations. A call for a special session of the legislature will probably be chief among them.

Many thousands will be destitute here this winter, for crops in most places are an impossibility. Where a pitiful beginning has been made, and stunted crops have had a start, heat and cut worms have gotten to them and are completing the discouraging, ruinous waste.

Relief Work Nears End.

New Orleans, La., July 23.—[Special.]—With the slow recession of flood waters from south Louisiana farm lands nearing completion, and with work starting on the closing of the Caernarvon crevasse, general relief work in this section is practically at end.

All refugees from south Louisiana areas cared for here by the Red Cross are expected to be back in their homes within a week, and within two weeks the majority of refugees from the territory flooded by the artificial crevasse probably will be returning.

The problems in the parishes are first, rehabilitation of the farmers; second, pasture of live stock in sectors still flooded; third, the sanitation of the water logged regions, and, last, the rebuilding of the broken dikes.

Parishes are bankrupt, and the only agencies to repair the levees are the state and federal governments. This work must be done promptly—some say it should have been begun long ago—or next spring may see a re-enactment of the devastating catastrophe.

Arkansas Needs Credit.

Little Rock, Ark., July 26.—[Special.]—Credit is the all important problem if the farm lands of Arkansas are

## Thompson Calls Hoover Flood Control Plan Half Baked; Seeks Many Minds for Problem

BY OSCAR HEWITT.

[Chicago Tribune Press Service.]  
Macine Island, Mich., July 26.—[Special.]—Two prominent agencies of the federal government were bombarded at the governor's conference today.

Both attacks grew out of the Mississippi river flood.

At the banquet of Gov. Owen to the guests tonight, Mayor William Hale Thompson of Chicago took several shots at Secretary of Commerce Hoover.

The mayor does not think much of the secretary's reported plan of flood control, and in discussing it referred to "half baked measures."

Mr. Hoover had been invited to discuss the flood problem at the morning session, but was unable to be present. Former Gov. Pinchot of Pennsylvania substituted by request an offhand discussion.

He charged up the tremendous calamity of the 1927 flood to the army engineers.

Both Pinchot and Thompson urged federal commission to make a complete study of flood control. They would have every interest concerned represented on the commission.

"Fifty years ago, now, the American nation, in half hearted fashion, has been attempting control of these floods. Our failure to do so is a national humiliation," Mr. Thompson said.

The Chicago mayor complimented to be restored, it is regarded here. Where the flood has spent its costly fury, farmers are striving frantically to raise a few dollars by sowing quick crops.

In most cases it was too late for cotton and farmers are experimenting on potatoes, cabbage, soy-beans, hay and corn. Crops are doubtful security, and the farmers, in most cases tenants, are sorely pressed for funds. Banks all hold farm paper to a point where it would be calamitous to take more. It is the opinion of most leaders that federal aid must be given. When winter comes, and it is shown that many crops failed in their race against time, destitution will be the lot of these Arkansas farmers who were caught in the disaster.

The recently created farm credit organizations have failed to meet the problem, it is declared. They demand ample security, require a high interest rate, and insist on payment in full. Some farmers cannot pay for several falls.

200,000 Are Destitute.

St. Louis, Mo., July 26.—[Special.]—Reports from southern Missouri and parts of Arkansas indicate that much of the lowlands there are still flooded and that in about one-third of the territory it has been impossible to make a crop, with the result that it is anticipated that some 200,000 farmers will be destitute this winter, and that immediate and continued relief work on their behalf will be needed.

In the same territory, lack of bonding power and fear of high taxes has prevented the raising of necessary funds for levee repair and replacement, and it has become evident that not much can be done along those lines by the drainage and levee districts. It will be a problem for state and federal accomplishment, and it now appears certain that little will be accomplished in the way of levee work before the winter sets in.

\$2,000,000 Cotton Loss.

Vicksburg, Miss., July 26.—[Special.]—The delta country has practically emerged from the deluge, and business houses again are open. But an overwhelming loss has been invoked upon it. In 1926 Greenville

President Coolidge, Secretary Hoover, Secretary of War Davis, General Jaden, chief of army engineers, then took this shot at Mr. Hoover:

"While we admire and approve what Mr. Hoover and his associates have done, it does not necessarily follow that we must admit Mr. Hoover's capacity for solving alone the problem of flood control upon a permanent basis. This, in our judgment, is not a problem for one man to solve."

"Mr. Hoover fixes the cost of flood control at \$150,000,000 to be expended over a ten year period. I don't know how Mr. Hoover arrived at this figure, but there is a hint that in the Hoover plan we would continue to follow largely the same policy which the government for some years has been pursuing."

"The Mississippi river commission under the present appropriation by congress has authority to spend \$10,000,000 annually in flood control, and the present method and the present inadequate by the 1927 flood. It is nothing but a continuance of our present policy with a slightly larger expenditure of money. It will be a severe disappointment for the American people to find that after the horrors of 1927 we are but to return to the policies which made those horrors possible."

Chase S. Osborn, former governor of Michigan came to the defense of Chicago on water diversion.

"Inasmuch as you have heard the tales that the lakes are drying up and that Chicago has been largely responsible because it wishes to keep its very real Augustan stables cleaned before they start the poisoning of all the nation, you will be glad to be reminded that the lake levels are full two feet or more higher than they were a scant year ago," the former governor said.

"They are going up all the time in spite of majestic Chicago."

"This is caused by the natural stoppage of interferences in the bottoms and rims of the lake bowls by erosive materials carried by the waters in such a manner as to cut off the outflow. This, with an increase in rainfall, is to save the common but rather ignorant conviction of Chicago."

Mr. Osborn also urged that the Mississippi river floods constitute a national responsibility and he urged as long length for a waterway to the St. Lawrence.

Gov. Albert C. Ritchie of Maryland, urged the creation of a house of governors that "would play a powerful part in partisan political life of the nation." He would have an organization voluntary and cooperative which would exchange ideas and information through a corps of secretaries. Then, too, he suggested a more frequent meeting than once a year.

JURORS ORDER  
QUIZ OF WIFE'S  
DEATH BY FIRE

A coroner's jury yesterday refused to return a verdict deciding that Mrs. Bertha Schubert, 1419 George street, was accidentally burned to death on the rear porch of her home July 2. Circumstances surrounding the death caused the jurors to order an investigation of activities of the woman's husband, John Schubert.

Mrs. Schubert's body was found on the porch by other occupants of the building. In her rooms were found her charred garments. Police detected an odor of ether about the rooms, they said.

Testimony at the inquest showed that Schubert and his wife had often quarreled.

## TRUCE REPORTED IN GANGSTER WAR AFTER 16 DEATHS

Fudists Shake Hands  
and Arrange Banquet.

Warring Italian factions, whose struggles in the last month have caused a total of sixteen deaths in Chicago and the suburbs, have agreed to a truce, it was announced last night after a meeting of the feud leaders and peace-makers had been held in Chicago Heights.

The trouble began on May 28, when 200 machine gun bullets were sprayed into the baking plant of Aiello & Co. at 473 West Division street. Five men were in the place at the time and two of them were reported to have been wounded, although their identities were never learned.

Reprisals began in earnest. Only one explanation was ever given to account for the machine gunning—the five Aiello brothers, owners of the concern, had "violated Italian traditions," it was said. But in retaliation some of the men who were fired on are said to have taken up the feud in earnest and the recent killings are attributed to efforts of first one faction and then the other to get revenge.

Beginning in Little Italy, the battle was shifted at times to Chicago Heights and to Melrose Park. Members of law-abiding Italian societies, it is said, became

## EVA TANGUAY AND ALEXANDER BOOKE, PIANIST, ARE WED

Los Angeles, Cal., July 26.—[Special.]—Evidence that Eva Tanguay, widely known vaudeville dancer and singer, was married to Alexander Booke, Hungarian concert pianist, last Friday, went uncontradicted by her today. A feminine voice at Booke's home here admitted her identity as Miss Tanguay, but she hung up the receiver when questioned about the event.

Marriage license records in Santa Ana, Cal., disclosed that Eva Tanguay, 48, of Sunset boulevard, Los Angeles, was issued a license to wed Booke, Los Angeles pianist. The couple were married on Friday at Lakewood, an adjoining community, by Justice of the Peace H. E. Hart.

Alarmed at the number of deaths and intervened as arbitrators.

Underworld reports say that a preliminary conference was held by the peace-makers and the leaders of the factions in New York last Friday. The fifteen men there, it is said, drew up the agreement that was ratified last night.

Banquet to Celebrate Peace.

"Everybody shook hands on it," one of the participants stated. "There may be more killings, but there won't be any on account of the shots fired at Aiello's bakery. A banquet will be held Sunday night to celebrate peace."

Little more than a week ago Chief of Detectives William O'Connor accused the Aiello brothers of attempting to rebuild the shattered alcohol business that reached the apex of its power several years ago under the Genoa clan, which was driven from the city after several of its members were killed.

## CHINESE FLOUT POWERS' PACTS; RAISE TARIFFS

Row with Foreigners on  
Shanghai Taxes.

By JOHN POWELL.

(Copyright 1927, by The Chicago Tribune.)  
SHANGHAI, China, July 26.—The Nationalist government at Nanking today announced a final plunge today in the direction of the tariff autonomy. The government published a complete list of the new tariffs on luxuries, running from 15 to 60 per cent. American imports to China were particularly hard hit. The 15 per cent. tariff on photographic supplies, movie films, typewriters, cash registers, calculating and duplicating machines, razors, cutlery, safes, fresh fruits, manure and furs.

### 25 Per Cent Tariff on Jewelry.

The 25 per cent schedules include jewelry, gold, silverware, watches, musical instruments, glassware, pipes, toilet articles, cosmetics, sporting goods, arms, motor vehicles of all kinds, automobile chassis and accessories, excepting passenger buses or trucks; silk goods, upholstered products, curtains and hangings, women's clothing, hats, shoes, hosiery, men's clothing, haberdashery, leather manufactures with the exception of machinery belting, hams, bacon, asparagus, cashews, pastry, cheese, butter, eggs, margarine, chocolate, coffee, dried and preserved fruits, honey, jams, jellies, canned and bottled goods, with the exception of milk and cream, salad oils, sauces, extracts, cube sugar, syrup, tea, spices, and condiments.

A tariff of 57 1/2 per cent is levied on cigars, cigarettes, prepared tobacco and alcoholic liquors of all kinds. Chinese liquors also were hit by the 25 per cent duty on birdnest soup, porcupine and shark fin, ginseng, used for medicinal purposes in China also is subjected to a 25 per cent tax.

Tanks to Protest to U. S.  
American merchants met and decided to send a protest to Washington, but local American officials did not hold out much hope for relief, unless the Nationalists could be induced to postpone the enactment of the new law for several months in order to enable readjustments.

The government has not yet published the list of tariffs on general products, which will fall within the 25 per cent schedule. This category will include iron, steel products, machinery and flour.

Foreign authorities in Shanghai today took drastic action against the Chinese newspapers, which have been agitating against the payment of increased municipal taxes on the grounds that the Chinese are not represented in the foreign settlement administration. The municipal council shut off the power of the Nationalist organ, the China Courier, published in English, but the paper is getting out tomorrow's edition in a limited size, halving the council's action.

Threaten Power Stoppage.  
Two large Chinese newspapers, Shun Pao and Sin Wan Pao, also are threatened with a power stoppage unless they cease the agitation against the tax increase.

British authorities are closing and threatening all Chinese stores and business concerns which refuse to pay the municipal taxes. Chinese banks are threatened with the withdrawal of police protection if the taxes are not paid by Aug. 1.

Three large department stores, incorporated by the British, but now owned by Chinese, with an aggregate capitalization of more than \$15,000,000, also threatened with closure, but the British finally decided to take action through the courts.

### Demand Rights for Chinese.

Dr. C. C. Wu, the Nanking foreign minister, told THE TRIBUNE correspondent tonight that he intends to try to mediate the controversy with the foreign powers over taxes, declaring, "The Nationalist government does not intend to permit foreign authorities to curtail Chinese rights without a fight to protect Chinese interests within the foreign settlement, which are required to pay the most of the expense for the maintenance of the foreign areas, but are not permitted a voice in the settlement administration."

The position of Gen. Chiang Kai-shek, commander of the Nanking government army, is becoming precarious, owing to the pressure of the forces of the Nationalist government at Nanking.

## HUSBAND SAYS ALIMONY FIGHT COST HIM JOB

Lost It to Cut Payments,  
Is Wife's Retort.

Whether William J. Stewart, furniture buyer, has intentionally reduced his income so as to deprive his wife of separate maintenance or whether his wife's prosecution has driven him into comparative poverty was a question puzzling Superior Judge Joseph David yesterday.

Stewart, whose income has dropped from \$9,000 to \$2,000 a year in an 18 months' divorce court fight, came into court on a motion to reduce the \$255 a month he has been paying Mrs. Catherine Stewart, 914 West 70th street, under a temporary order. He told a story not unlike the complaints of those who recently banded together as the Alimony club.

Stewart related that he has been forced by his wife to appear in court so many times, neglecting his business, that he was discharged July 2 as manager of the furniture department of L. Klein.

In seeking other employment, his petition sets up, he found that he had become known in the furniture trade as the husband of "a persistent and aggressive woman." The best job he

William Williams, 1417 North Dearborn street, discovered yesterday that he signed a complaint against his brother, Roy Williams, charging him with the theft of his automobile. He appeared at the detective bureau and asked permission to withdraw the complaint against Roy Willoughby. Williams' car disappeared June 22 and was recovered a few days later in Milwaukee and the driver, who gave the name of Willoughby, was sentenced to 30 days in jail for speeding and reckless driving. When he was released yesterday he was rearrested on the Chicago warrant charging him with the theft of the automobile. Williams then discovered that "Willoughby" was his brother.

## PINCHOT URGES VARE BE BARRED OUT OF SENATE

Attacks Mellon in Speech  
Before Governors.

BY OSCAR HEWITT.  
Mackinac Island, Mich., July 26.—[Special.]—Election corruption—stealing and buying of votes—especially in Pennsylvania, received a thorough airing before the governors' conference today.

Former Governor Gifford Pinchot told the chief executives from nearly 30 states that Pennsylvania will not object to seeing the United States senate pitch Senator-elect Vare out on his head. Indeed, he urged that it be done. Then he pictured Secretary Mellon as a political partner of Vare.

**Calls Machine Corrupt.**  
"The decent citizens of Pennsylvania are humiliated to see William S. Vare, the boss of its most corrupt machine save one, standing at the door of the United States senate demanding admission on the basis of a purchased nomination and a stolen election," said the former governor. "In the times of Cameron, Quay, and Penrose, the policy of the higherups, who controlled the government was to wear a glove on the iron hand. They lived by the creed, 'the public be damned' but they had decency enough to stay out of sight."

"After the death of Penrose and with the advent of Mellon for the first time in American political history, mere raw, brutal money came out of its hole, threw away every pretense and openly proclaimed: 'I am the state, and by money I mean Mellon.' The people of Pennsylvania are responsible for tolerating but not creating the political corruption which has its symptom in Vare. The men who procured the spread of political corruption because their personal and financial interests profited by corruption—they are the creators of this shame."

**No Choice in Tyrants.**  
"If a nation cannot rule itself I cannot see that it makes much difference whether it is ruled by a foreign tyrant with arms or by a domestic tyrant with stolen votes. One is no more dangerous to self-respect and self-government than the other."

"To do away with the present supremacy of money in public affairs is the first political duty and the great political crime before the people of the United States. Few doubt, though many will deny, that domination. No matter what he may say, every man familiar with public business in the United States knows that we are ruled by money. Every good citizen who is awake will recognize the danger of the present situation."

"The overlord of money is far worse today, at least in my own state, than it was in Roosevelt's time. Even the election booth has been turned into a cash and carry store. Millions are poured out to purchase nominations and elections with even less hesitation than in making other investments. It pays better. The vote of the honest citizen is canceled by the dollar."

**Says Corruption Spreads.**  
"Under the present political master of Pennsylvania political corruption is steadily and rapidly increasing. It is spreading out of the 'strip' in Pittsburgh, the stronghold of the Mellon machine, into those parts of the city which used to be clean. It is spreading out of the Vare controlled wards in Philadelphia, into those which appear to be independent. It is spreading for one reason and one only—because there is money in it."

Mr. Pinchot had previously sent to every governor an outline of a bill to curb election corruption. This would limit primary expenditures to 10 cents for each vote cast at the last election by the candidates' party. This is comparable with \$1.25 spent by Senator Pepper, 45 cents by Congressman Vare, and 13 cents by the former governor in the last senatorial primary which brought about the United States senatorial slush fund investigation.

The bill provides that each candidate must have a fiscal agent to whom all contributions must be made and through whom all expenditures must be made, and he must pay by check or

## ZIEGFELD AID ADMITS \$500 WEEK BRIBE FROM THE TICKET SCALPERS

New York, July 26.—[Special.]—Julian Anholt, box office treasurer of the Ziegfeld theater, which is directed by Florenz Ziegfeld, confessed to a revenue officer that he was receiving between \$400 and \$500 a week bonus money from ticket agencies. It developed today at the hearing which the government is conducting regarding the sale and distribution of theater tickets.

Anholt said the fact that he was a beneficiary was not known to Ziegfeld. Anholt denied that any one shared with him the bonus money. He has been receiving it since the opening of the Ziegfeld theater last February.

money order all items of \$5 or more. "Most important of all," Mr. Pinchot went on to explain, "it provides for the forfeiture of any nomination in the contest for which either the candidate or his authorized agent breaks the law or consents to the breaking of it by others. It deprives of office any candidate who is guilty of committing or permitting corruption for his benefit. The most effective punishment for a candidate who cheats in his effort to get office is to deprive him of the office he cheated to get."

## COURT ASKED TO REJAIL THREE IN ELECTION FRAUD

County Judge Edmund K. Jarceid will decide this morning what action, if any, will be taken to return three convicted election officials to the county jail from which they were released on a writ of habeas corpus by Circuit Judge Otto Kerner. Special Prosecutor Charles Center Case reported the releases to the county judge yesterday, condemned the action, and asked the court for advice.

The defendants are Robert White, John Sherry and Sam Cantanara, given jail sentences for fraud in the 16th precinct of the Forty-second ward where State Representative Lawrence C. O'Brien is the political boss.

Judge Kerner, to whom they addressed a petition for a writ of habeas corpus, continued the hearing until Aug. 8, releasing them on \$5,000 bonds in the meantime.

"The habeas corpus act provides for immediate or prompt hearing," Mr. Case said in criticizing the procedure. "Furthermore, the defendants were released without my receiving notice of the action. And I

am informed that Representative O'Brien obtained their bonds. "The Sixteenth precinct of the Forty-second ward has not the best reputation. Representative O'Brien was indicted but not prosecuted for doing as that poll in 1917. And the precinct has been investigated after every election since."

"In 1925, there was a similar case of officials convicted and later released by a Circuit court judge. Later, when the Court of Appeals ordered them to begin serving sentences, not all of them could be found."

In the meantime, the state yesterday closed its case against Harry T. Hughes, Charles B. Thompson, and Edward Heller, charged with fraud as officials of the Forty-second ward.

## MARRIES 4,500; CALLS BLONDE. BRIDE DUMBEST

Liberty, Mo., July 26.—[Special.]—The expert observations of the Rev. F. V. Loos, who has married 4,500 couples crystallize as follows:

"The red haired girl always seems to have the attitude of 'here's my man, tie him to me,' the brunette is serious and seems to take the ceremony in earnest, but the dumbest bride, who often seems to wonder 'what it's all about, is 'the blonde.'"

## FREE TO COPS IN RUM CONSPIRACY TOLD AT TRIAL

Bootlegger Says \$400 Was  
Paid for Protection.

"Our first week of business partnership in the liquor racket in the seventh ward netted us a profit of \$2,400, of which Rydzewski took \$400 to take care of the police."

This was the testimony yesterday of Joseph Ragozki, former owner of a saloon at 8400 Buffalo avenue, and chief government witness in the trial of Frank Rydzewski Jr., former university football player and son of a prominent politician, and two others on trial before a jury in the court of Federal Judge Fred L. Wham.

Burt Baker, former deputy sheriff, and Joseph Chemna, former bailiff of the Municipal court, are co-defendants with Rydzewski. Ragozki, indicted with the three, pleaded guilty and has been granted a separate trial.

**Enter Into Partnership.**  
"Baker, Rydzewski and myself met in Rydzewski's office at 5300 Bursley avenue on June 10, 1924," Ragozki testified. "Baker said he had a good proposition of making and selling alcohol. We agreed to go into partnership. Rydzewski was to take care of the police and the customers and Baker and myself were to do the manufacturing and transporting of the liquor."

Ragozki testified to a later conversation at which Rydzewski told him that he would be made "big boss" of the bootleggers in South Chicago. This was after he had bought an expensive automobile for Rydzewski, for which it was agreed South Chicago saloonkeepers were to be assessed \$100 each.

"Rydzewski suggested that we find a location to operate," Ragozki testified, "preferably in the Seventh ward. One was found at 95th street and Torrence avenue and approved by Rydzewski with the remark that it is in the South Chicago police station."

**Police Captain Indicted.**  
Former Police Captain Thomas J. Coughlin was in charge of the district at the time and has been indicted by the federal authorities. Almost one hundred others are under indictment in connection with the liquor scandal in South Chicago and will be tried later.

In the breaking up of the partnership, Ragozki said he was forced to pay \$100 a month to Rydzewski for protection money. He completed his direct testimony late in the day and this was cross-examined briefly.

Miss Lillian Urbanowicz is expected to follow Ragozki on the witness stand. She is said to have been a witness in the paying of graft to policemen and politicians in connection with liquor traffic in the South Chicago district.

Assistant United States District Attorney Edwin Pfeiffer and Leo Klein are prosecuting the case. Edwin Weis and William Waugh, both former assistant district attorneys, are the defense lawyers.

## AUTO KILLS GIRL, 13, AS SHE STEPS FROM BEHIND PARKED CARS

Irene Ambler, 13 years old, of 334 Buena avenue, was fatally injured yesterday as she stepped from a row of parked cars at Wilson and Broadway into the path of an auto driven by Norbert Nielsen, 18, 3356 Southport avenue.

IRENE AMBLER.

The youth picked her up and rushed her to the Lake View hospital but she died a few minutes later. He was held for the inquest.

With four other deaths during the day, Cook county's motor toll for the year was raised to \$26.  
Lorenzo Dunno, 18 years old, address unknown, died of injuries received June 29 at Twenty-seventh street and South Park avenue by a car operated by Fred Charles, 2240 West Sixty-third street.

Frank Petzel, 30 years old, 1413 Dickson street, died of injuries received when he was knocked from an ice truck Friday at Belmont avenue and Broadway.

Mrs. Ellen Ballard, 47 years old, colored, 3338 South Michigan avenue, who was hit by a Yellow cab July 15 as she was crossing the street in front of her home, died yesterday.

James Tracy, 70 years old, of 2044 Fremont street, who was injured July 19 when an automobile driven by Peter Calles, of 47 West 115th street, hit him while at 75th street and Western avenue, died last night in St. Bernard's hospital.

Two persons were injured in a collision between a motor truck operated by Nicholas Cackhi, 1416 South Karlov avenue, and a street car at Roosevelt road and South Sacramento boulevard. The injured, both passengers on the street car, are Joseph Simon, 27, of 1231 South Peoria street, cut by glass and possibly hurt internally, and Robert Bradley, 31, colored, 1045 Frank street, cut by glass.

## OAK PARK COP ADMITS PART IN EIGHT ROBBERIES

**CRIMINAL COURT.**

Willard Becker and Daniel Moylan, robbery, sentenced to 1 to 50 years each in Pontiac reformatory; Walter Michael, robbery, sentenced to 1 year to life in the penitentiary; Richard Oliver, robbery, sentenced to 1 year in the Bridewell and fined \$200; Edward Mason, burglary, sentenced to 1 year in the Bridewell and fined \$50 by Judge Stanley Karkowski.

Joseph Badger, 32 years old, 7244 South Winchester avenue, a former member of the Oak Park police department, entered a plea of guilty yesterday before Judge Stanley H. Karkowski in the Criminal court to being a participant in some of the eight burglaries which occurred on his post in February and April. He was given until Aug. 2 to straighten up his business affairs before formal sentence is imposed.

Roy McManus, 33 years old, will be sentenced on the same day and John Stramek, 33, the third member of the gang, will start to trial before a jury at the same time.

Among the burglaries admitted was the one at the home of Morley H. Fox, 833 North Grove avenue, Oak Park.

**ACCUSES EMPLOYE OF THEFT.**  
Louis Koltschak, owner of a restaurant at 3050 West 23d street, reported to the police yesterday that one of his employees, Clarence Summers, had stolen \$50 from the cash register.

## SEEKING POLICE CAPTAIN'S SON AS BEER MAKER

(Picture on back page.)  
Robert Gallery, son of Capt. Michael Gallery of the North Robey street police station, and Grover C. Heldmeier, grandson of the late Police Inspector Max Heldmeier, and himself a patrolman attached to the Summerdale police station, will be named as owners of a wildcat brewery at 1746 Melrose street, in warrants to be sought today by prohibition agents.

Gallery and Heldmeier are alleged to have invited Prohibition Agent Bruce Armstrong and his raiding squad from the brewery to a cigar store and soft drink parlor at 5624-26 Broadway to talk matters over.

**Says Escapes Were Easy.**  
Armstrong charges that Gallery escaped by using a secret doorway in the cigar store and that police officers of the same station to which Heldmeier is attached made no effort to detain him after he was turned over to them.

John Burke, bartender, and Harold Cedars, who said he owned the soft drink parlor at 5624 Broadway, were arrested by the raiders and released on bonds of \$1,000 each by United States Commissioner Henry C. Belter. "Come over where we sell the stuff and we will take care of you," Armstrong said Gallery and Heldmeier told him when they arrived at the brewery during the raid Monday night.

Gallery lives at 4630 North Paulina street and received considerable notoriety three years ago when he claimed a police squad withheld funds seized during a poker game in his cigar store at the Broadway address. He is a brother of Thomas Gallery, movie actor. Heldmeier lives at 5208 North Leavitt street and was shot on New Year's eve of 1924 while at a party in a Niles roadhouse.

**Calls Armstrong Liar.**  
Capt. Gallery when informed of the charges branded Armstrong "a damn liar." "We will prove that Robert had nothing to do with any brewery," he said.

"Armstrong and another man who gave the name of Jones, and said he was an attorney, tried to push me in the brewery," Robert Gallery said. "Armstrong said that we need not be afraid, that he would fix things up if we would give him a liberal amount of money."

Chief of Police Michael Hughes when informed of the government charges said he would request an immediate report.

## COUNCIL ORDER TO CUT PRICES AT PIER SOUGHT

Hot dogs and ice cream cones will sell for a nickel to Chicago's poor children who swarm to the Municipal pier during the hot weather if Commissioner of Public Works Wolfe has his way.

Mr. Wolfe said yesterday he is in favor of modifying the provision whereby the pier refreshment concessionaire pays the city 28 1/4 per cent of his gross profits, forcing him to charge high prices to the public. The commissioner indicated that he will ask the council to reduce the percentage in next summer's contract.

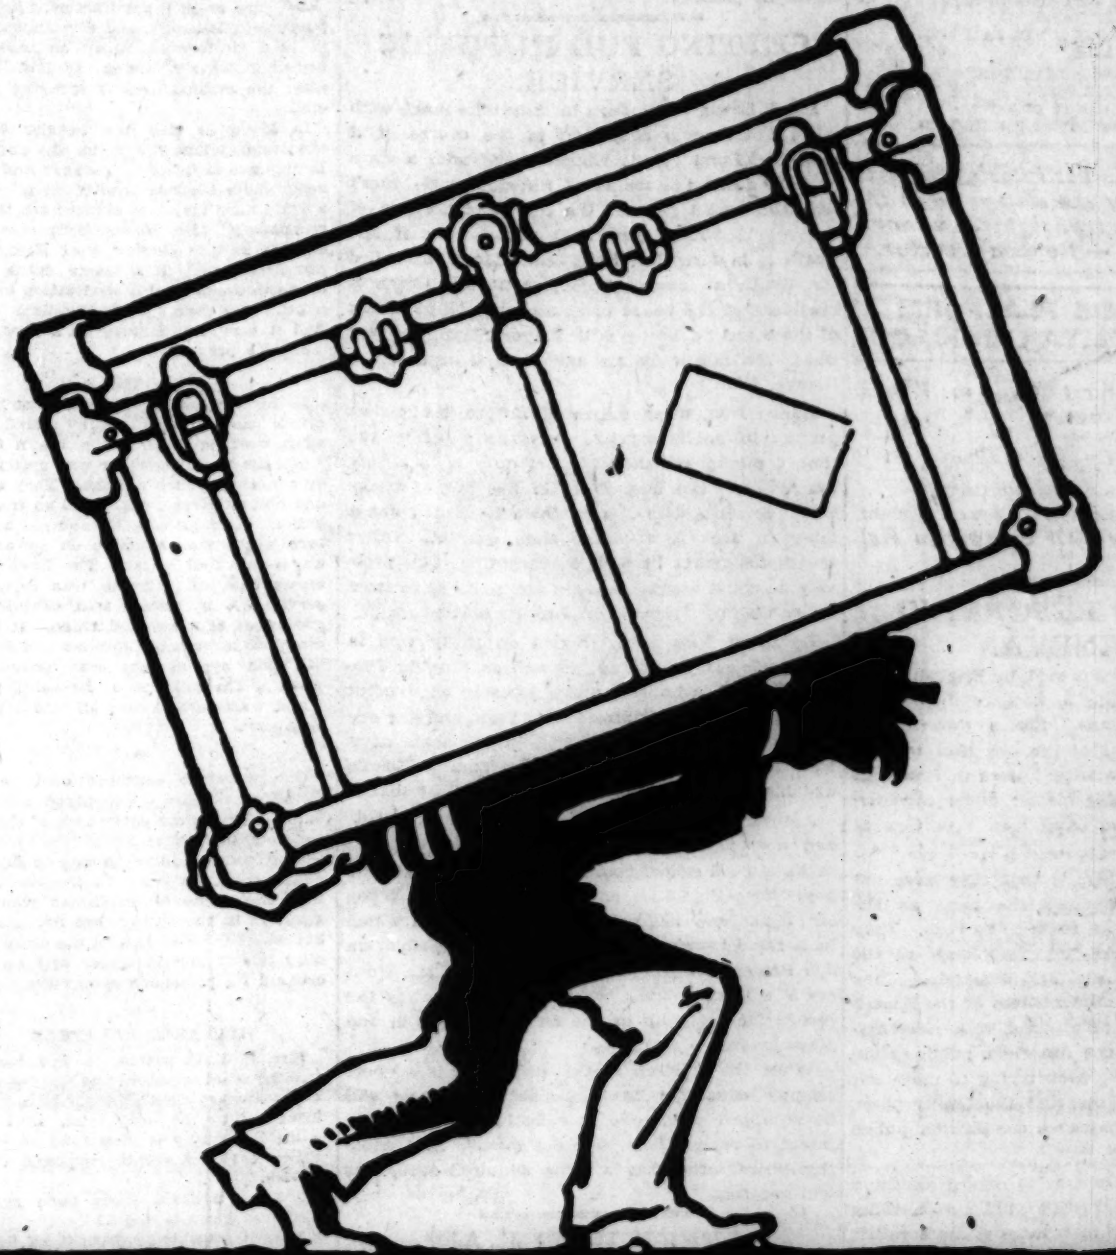

"The kids can buy ice cream for five cents in the west parks and other places and there is no reason why they shouldn't at the pier if the city will be reasonable," said Mr. Wolfe. "The pier is dedicated for the public and I'm for making prices as low as possible."

An investigation of high prices, asked by Ald. George Maypole (28th) recently, disclosed that the city's charge is the real reason for the complaints. The present concession expires Labor day.

## COOLIDGE HAS NO CHOICE FOR G.O.P. '28 CONVENTION

All Far West Is Pulling for San Francisco.

BY PHILIP KINSLEY.

[Chicago Tribune Press Service.]  
Rapid City, S. D., July 26.—(Special.)—President Coolidge has no choice for the next Republican convention city, he declared today. That he is interested, however, in the decision of the national committee in this matter is shown by the remark that he would be glad to confer with them if they desire.

The campaign is now on for the votes of committeemen in this choice of cities for the next great party convocation. San Francisco now has more votes pledged to it than any other city, it is said by one close to the committee.

Chicago, it appears, will have to do more than build a new auditorium to secure this prize.

That Coolidge Will.

The mountain and western state representatives are all for San Francisco, and the Pacific coast is working for it as a unit. Memories of the 1920 Democratic convention there, with the cool fog sweet wind of the Pacific holding down the political temperature, linger in the minds of politicians and have seeped into Republican ranks.

Pat Sullivan of Wyoming, a leader in the committee, close friend of the late Fred W. Upham of Chicago, has always voted with Chicago, but now, with his friend dead, he has thrown his influence to San Francisco. The President was nominated last time at Cleveland and this city, as well as Detroit and Minneapolis, is in the running. All have fine auditoriums. The committee will not meet to record its decision until December.

Puts It Up to Committee.

President Coolidge has been asked by several cities to use his influence, but he has directed the various advocates to go to the committee. It is the usual thing to consult with the President before this decision is made, particularly if there is any possibility that his name will go before the convention. If the President were to become a candidate he would have to consider the Lowden setting in Illinois.

The President expressed pleasure today at the plans for the Peace celebration at Buffalo, and announced that Secretary Kellogg would represent this government at the ceremonies in which the prince of Wales will be the conspicuous figure.

Members of the good roads association of 15 neighboring states in session at Hot Springs, were received at the lodge today. The President will go to Custer tomorrow morning to witness a pageant of the gold days.

## COOLIDGE CONSIDERS INVITATION TO VISIT HAVANA NEXT SPRING

Rapid City, S. D., July 26.—(Special.)—President Coolidge would like to accept the invitation recently extended by President Machado of Cuba to address the Pan-American congress in Havana next spring.

It became known today that he has under serious consideration such a visit. If he accepts it will be his first trip out of the United States as President.

President Coolidge declared that he did not want to say in advance that he would do so. He indicated that he desired to return the visit of President Machado but was unable to decide now whether his duties would permit him to leave the country at that time. He might make such a proposed trip the occasion of visiting Porto Rico to inform himself of conditions in that island, the people of which are clamoring for changes in their form of government and the election of a governor of their own people.

President Coolidge finds that he could attend the Havana conference and be back in Washington in four days by going by rail and water, but fears the trip to Porto Rico might take too much time.

Chicago, it appears, will have to do more than build a new auditorium to secure this prize.

## PRESIDENT BUDD SEES PROSPERITY IN BUMPER CROP

Great Northern Sends Cars to Ship Wheat.

Harvest time in the great northwest finds the greatest crop of wheat in more than a decade, according to observations made in a four weeks' tour by Ralph Budd, president of the Great Northern railway, as he outlined them in an interview yesterday at the Chicago club.

All indications are that the bumper crop of 175,000,000 bushels will find a good price, and consequently, Mr. Budd says, the farmers of the northwest are to have full wallets. Chicago and other midwestern markets will reap the benefits when the farmers come to the cities for finer stock, better equipment, home luxuries, and a good time, the Great Northern's president believes.

Best Crop Since 1915.

Mr. Budd, with other officials of his road, has been surveying the situation, as he does every year, to determine how many cars will be needed to move

the crop. And as a result of his observations he has started a great caravan of box cars into the territory. Already, he said, 10,000 are on sidings waiting for the grain that will be harvested in a very short time.

"It will be the greatest crop since the bumper year of 1915," Mr. Budd declared. "Then we moved 175,000,000 bushels of grain to the mills, and that same amount should be loaded this year. The only danger would be hail and black rust, and that danger is about past."

"Last year the crop was about 130,000,000 bushels. The indications are that this year the farm income from North Dakota, South Dakota, Minnesota, and Montana will be \$250,000,000 more than last year."

Good Price, Ready Market.

"The federal government bulletins indicate a deficit in winter wheat this year of 100,000,000 bushels, and so the great spring crop in the northwest is bound to find a good price and a ready market."

Electricification of western railroads cannot be effected for many years, if ever, Mr. Budd said. The traffic on western roads is too light to make electrification pay, as it will on eastern roads, he declared.

"However, the Great Northern is electrifying 75 miles of track adjoining the tunnel through the Cascade mountains," he added. "That is a special problem, because that tunnel is so long as to demand electric locomotion. In order to avoid duplication of power—that is, to have both steam and electric power at hand—we have decided to electrify a whole division."

KIDNAPED AND THEN BORN.

Jacob Surkin of 5220 Woodlawn avenue reported to the police that two men kidnaped him early yesterday, robbed him of two rings valued at \$2,000 and then threw him out of their car in Washington park.

## VOLIVA OUSTS POLICE OFFICIAL SEEN AT MOVIE

Police Lieutenant Benjamin Fisher, for seven years a member of the Zion City police department, has been ousted and also suspended from membership in the Zion church. Overseer Voliva announced yesterday.

Fisher is a married man and has several children. His ouster follows information supplied to the city council by the overseer, alleging that Fisher in company with a young woman attended a motion picture show in Libertyville, June 24. David E. Anderson, a workman in Voliva's plumbing shop, is to take Fisher's place.

Fisher, however, denies Voliva's statement and says he resigned from the police force last Friday. Fisher's removal is believed to be in harmony with Voliva's order to Mayor Ernest E. Harwood to "clean up the city administration."

With Anderson's appointment it is said the clique headed by Patrick McIntosh, Voliva's bodyguard, has won a victory. McIntosh himself tried to succeed Police Chief Theodore R. Becker, who resigned recently.

Boy Dies After Eating

Green Apples; Mates Safe

(Pictures on back page.)

Joseph King, 15 years old, of 2949 South Carpenter street, died yesterday afternoon, shortly after he had eaten half a dozen green apples he and several other boys had shaken from a tree near 1216 West 87th street.

The others also ate some of the apples, but did not become ill. An inquest will be held today to determine the cause of death.

## Building Superintendent Jumps 20 Floors to Death

New York, July 26.—(AP)—Stories of persons on their way to work today were started when William Barnes, superintendent of the United States Rubber Company building at 1790 Broadway, leaped to his death from the twentieth floor. The body, which landed on the sidewalk, just missed striking several persons.

# NASH

Leads the World in Motor Car Values

## "Come drive" week

July 27<sup>th</sup> to Aug. 3<sup>rd</sup>

### An invitation to drive the easiest riding cars you ever traveled in

The Three New Series of Nash motor cars, introduced thirty days ago, were an instantaneous success. The finest cars in Nash history have won America.

It is their beauty, speed, lowered lines, attractive colors and, above all, their phenomenal new performance which have given so much added impetus to Nash sales. (July 58% greater than any July in Nash history; the great Nash factories now achieving a new high production record of 700 to 800 cars daily.)

Praise for these finer, faster, more luxurious models of Nash is heard everywhere.

Anyone who has driven one of them will tell you that supreme riding luxury is accomplished by the new Nash super-springs of secret-process alloy-steel.

They will tell you the engines in these new cars are smoother and quieter than ever. (Nash has further refined its 7-bearing principle by integral balance of operating parts.)

And they will also tell you that these are the easiest steering cars on earth!

It is the greatest motor car contrast in the world today to step out of your car, and then drive one of these great new models of Nash.

We want you to know that contrast. This is Nash "Come Drive" Week. Courtesy cars are awaiting at all Nash showrooms.

All you need to do is step into the car, sit down behind its wheel, and drive it. No sales pressure. No obligation. Don't buy any car today, until you have driven a Nash!

## LIQUOR AND NEW BRIDGE POINT TO CITY OF MILLION

715,000 Visit Canadian  
Hamlet in 36 Days.

BY ARTHUR EVANS.

(Chicago Tribune Press Service.)  
PORT ERIE, Ontario, July 26.—  
Along the Niagara frontier Americans  
are crossing over in larger numbers  
to become temporary or permanent  
residents of Canada. Amalgamation  
of border folk living under two flags  
has reached the point where engineers  
are talking of an international city  
embracing the Niagara region in both  
countries with an area of 700 square  
miles and a population of a million.  
Real estate is increasingly active,  
subdivisions are being mapped out,  
hugawog colonies are going up, more  
Americans are playing golf on Cana-  
dian courses. And, so customs au-  
thorities assert, a great increase has  
occurred in all these trends since On-  
tario went to its new temperance po-  
lice of government sale and control of  
liquor.

Bridge Helps Border Cities.  
Other factors are helping the as-  
similation, chief of them being the new  
\$14,000,000 peace bridge between this  
city and Buffalo. The bridge is the  
greatest thing to happen around this  
town since the war of 1812.

Port Erie, with 1,500 population, and  
Edgewater, with 2,500, had been about  
as lively as cemeteries until June 1  
dawned.  
On that momentous day, the bridge  
was opened to commemorate a hun-  
dred years of peace between the United  
States and Canada, and the province  
of Ontario opened its government  
liquor stores with the avowed pur-  
pose of restoring temperance, sobriety,  
and respect for law, which had broken  
down in the ten year bootlegger regime  
under prohibition.

In the first thirty-six days after  
the opening 715,000 people and 221,000  
automobiles came across the bridge  
into Port Erie. The townfolk are  
still dazed.

The peace bridge, by the way, is to  
be formally dedicated Aug. 7 by Vice  
President Dawes, British Prime Min-  
ister Baldwin, and the Prince of  
Wales.

Increased Values for 50 Miles.  
The opening of the bridge automati-  
cally increased real estate values in  
the whole peninsula from the Niagara  
river west for at least fifty miles.

One result of the bridge is that Buf-  
falo's shore line has been more than  
doubled. The bridge brought within  
easy riding distance stretches of the  
Canadian shore of Lake Erie. Past  
traffic arteries have been opened.

It is like adding a shore line stretch  
as long as from Lincoln park to Wil-  
mette to Buffalo's recreational and  
residential lake line.  
New residents of Port Erie, Ontario,  
can drive to the business center of  
Buffalo, N. Y., in ten minutes, where  
from an equal point in Buffalo it  
would take about twice as long in traf-  
fic. The result is that Americans are  
buying property along the Canadian  
shore as far as Port Colborne.

New Clubs Being Promoted.  
Two golf clubs on the Canadian side  
are patronized almost entirely by  
Americans. New country clubs and  
beach clubs are being promoted as in  
Chicago and California.

On the other hand, thousands of  
Canadians cross the frontier to their  
work. At Niagara Falls, it is figured  
1,400 Canadians have jobs on the  
American side in normal times and  
2,000 during seasonal rushes. For  
every American living on the Canadian  
side, they estimate, there are two or  
three Canadians who work on the  
American side.

Open More Beer Warehouses.

(Chicago Tribune Press Service.)  
TORONTO, Ont., July 26.—Greater  
facilities for buying beer are to be  
provided in Ontario right away. Ad-  
ditional brewery warehouses will be  
located in Toronto and throughout the  
province to eliminate the possible re-  
turn during the warm weather of the  
shop "rushes" which character-  
ized the first few days of beer sales  
here. The government is encouraging  
the sale of malt beverages rather than  
hard liquors.

### Stand Denies Helping Road Jubilee Fund Drive

A. J. Stand, state director of agri-  
culture, last night added his name to  
the list of state officials and employees  
who have disclaimed responsibility for  
the fund soliciting activities of the  
"High Road Jubilee association." In a  
telegram to T. H. Evans, Director  
Stand said he did not know of the  
existence of such a committee until  
he saw a reproduction of one of its  
letters sent to a road material com-  
pany.

## CHICAGO POLICEMEN SOON MAY LOOK AS IF THEY RATED A SALUTE

Shining brass buttons, high collared  
blue coats, and long trousers, the dis-  
tinguishing marks of Chicago police-  
men for years, may soon go into dis-  
card with the billy club and horse-  
drawn patrol wagon.

Chief Hughes revealed yesterday  
that he is thinking about tossing out  
the police force in natty new uniforms  
resembling those of United States army  
officers. They would have open col-  
lars, Sam Browne belts, full-cut hip  
and tight knee-length breeches, tan for  
summer and blue for winter.  
Snapper costumes, the chief be-  
lieves, would raise the morale of the  
department and increase its efficiency.  
He has been looking over several  
models recently and favors the army  
style.

The chief explained that he took his  
cue from Col. Theodore Roosevelt and  
Gen. Smedley D. Butler of the Marine  
corps, who, in their days as police com-  
missioners of New York and Philadel-  
phia, adopted the military type of uni-  
form for their men.

## WAGE INCREASE ENDS STRIKE OF STEEL HAULERS

The strike of Chicago teamsters who  
haul structural steel to large construction  
projects was settled yesterday  
when employers agreed to grant the  
teamsters a wage increase of \$1 a day  
and made concessions regarding the  
overtime status of the union drivers.

Strike action was taken Monday  
when negotiations failed to settle de-  
mands of the union for a wage in-  
crease.

Under terms of the new agreement  
the teamsters will receive double time  
for Sunday employment, and their  
work shift is reduced from 9 1/2 hours  
to 9 hours. The settlement was nego-  
tiated by Michael Artery, head of the  
Machinery Movers and Riggers' union.

## CHARGES YACHT WOOSH.A.DEVRY FROM BUSINESS

Stockholder Sues to Ex-  
amine Books.

Excessive indulgence in the ancient  
sport of yachting is charged against  
Herman A. DeVry, president of the  
De Vry corporation, manufacturer of  
movie projectors, cameras and stereo-  
opticons, in a mandamus suit filed  
against him in the Circuit court yes-  
terday by Mrs. Carolyn B. Gunde-

lach, wife of Albert B. Gundelach, un-  
til recently vice president of the cor-  
poration and also well known as a  
yachtsman.

The petition asks for a writ to com-  
pel De Vry to permit her, as one of its  
stockholders, to examine the books of  
the company.

The bill sets up that De Vry devotes  
much of his time to yachting "and  
other diversions connected therewith,  
all to the detriment of the De Vry cor-  
poration." He remained away from  
his office as long as eight weeks at a  
time sailing, while the firm was pay-  
ing him \$15,000 a year salary, it is  
charged.

Mrs. Gundelach further charges that  
De Vry, controlling the board of direc-  
tors, has loaned \$50,000 of the cor-  
poration's funds to finance the Neigh-  
borhood Motion Picture Service of New  
York, in which he also is interested.

Attorney William A. Rogers, em-  
ployed by Mrs. Gundelach, was refused  
permission to see the company's books,  
the petition relates, De Vry telling  
him that Gundelach had been dis-  
charged and that the information  
sought probably was to be used im-  
properly to the detriment of the cor-  
poration.

## INDIANA JURORS AWAIT DRAGON'S SECRET PAPERS

Prosecutors Studying the  
Contents of Boxes.

Indianapolis, Ind., July 26.—(AP)—Original documents, from which photographs have been made and previously turned over to the authorities, have been found in D. C. Stephenson's black boxes, which he has said contain proof that political graft and corruption dominated Indiana politics in recent years.

studying the material turned over to them last week, were responsible for the statement that original copies of purported contracts and agreements had been found in the boxes.

### Grand Jury Instructed.

Meanwhile, the Marion county grand jury was wading into a mass of other data, having been instructed earlier in the day to turn their attention to the charges which first were made nine months ago by Stephenson through Thomas H. Adams, publisher of the Vincennes, Ind., Commercial.

Until today the grand jury, the third to sit since the charges first were made, had not been instructed to make an investigation.

Judge James A. Collins of the Marion County Criminal court told the jurors they should inquire into willful and corrupt misconduct in public office of every description.

### Remy Studies Documents.

The material available to the grand jury at the present time is that which was examined by the two other grand juries by which no indictments were returned.

The documents from the black boxes will not be available for several days, Judge Collins advised his jury, because the prosecutor and his assistants will need some time to select from

them those which they deem of value. Now that he has possession of the Stephenson material, Prosecutor Remy is taking every precaution to prevent its getting out of his custody before he is ready to submit it to the grand jury.

The grand jury is scheduled to adjourn Friday until Sept. 5, but Judge Collins paved the way for it to continue in session, should it deem such a step necessary in pursuing the political investigation. He said he and the clerk would be available at any time the grand jury should desire their presence in court.

### Adams Makes Charges.

Coincidentally with the developments in Indianapolis today, Editor Adams from Vincennes issued a statement demanding the publication of all the Stephenson documents. He insisted it was the right of the Indiana newspapers "for clean government." Adams declared the first grand jury was organized "with the purpose of breaking down the probe committee" of which he is chairman. "The legislature was fixed and every body knows it," he added.

ACCUSED BY TWO GIRLS. William Smith, 34, of 3289 Glycerine avenue, was held to the grand jury yesterday after two young girls testified that he had mistreated them. Bonds were fixed at \$7,000.

## 279 OF AIMEE'S FLOCK DEMAND KIDNAPING TRUTH

Los Angeles, Cal., July 26.—(Special.)—Aimee Semple McPherson's famous "kidnaping" into the Mexican wild last year was brought into the limelight again today when the Rev. Gladwyn Nichols, former condottiero of the titian haired evangelist and now leader of a group of seceders from Angelus temple, called for a confession from the church leader and her mother, Mrs. Minnie Kennedy, to ease their consciences.

Inflamed at the direct insinuation that her purported kidnaping and imprisonment in the desert by "Steve" and "Rose" was a figment of the evangelist's imagination, Mrs. McPherson declared Nichols and his church "needs advertising very badly."

### Refuses Confession.

"I have no confession to make whatever," she asserted. "I told the

truth and I walked in the light. Such uncharitable remarks by any one who has taken your good money in salary certainly does not seem becoming to the name Church of Philadelphia, which means 'Church of Brotherly Love.'"

Church of Philadelphia is the name of the organization founded by Nichols when he left Angelus Temple with 279 members of the congregation.

### Name Never Cleared.

Nichols called for the "confession" in the course of outlining five reasons why he and his followers would not return to the temple, fold. Among them was his assertion that there had "never been a clear explanation of the kidnaping case" and Mrs. McPherson's name "had never been cleared."

"Aimee Semple McPherson," he asserted, "and her mother both have confessions to make to the world, and I feel they ought to make them and get them off their consciences."

"I and the members of my church demand that they clear up the kidnaping story; until they do the public will never have full confidence with them."

### HELD FOR BAIL THREE.

Salvatore Genovese, 25, of 4445 South Spaulding avenue, charged with stealing silk valued at \$200 from a department store, was held to the grand jury yesterday in bonds of \$5,000.

## PARLIAMENT OF ROUMANIA TALKS QUEEN'S PENSION

Nicolas and Ileana Also Due for State Aid.

BY GEORGE SELDES.

(Copyright 1927, By The Chicago Tribune.)  
BUCHAREST, July 26.—The Rumanian parliament's session continued today, but it is expected to close for the summer before Saturday. The agenda includes the question of granting state pensions to Queen Marie, Prince Nicholas, and Princess Ileana.

The inventory of money, stocks, bonds, and other realizable assets, outside of real estate, owned by the late King Ferdinand reveals that he left his children \$20,000,000 lei (about \$1,000,000).

The exiled Prince Carol, however, gets 60,000,000 lei, or about \$3,000,000. Inasmuch as he does not intend any of the estates, but the money equivalent, it is estimated he will get more than \$750,000.

Most Rumanian Emigres.  
BUCHAREST, Rumania, July 26.—(U.P.)—With the taking over of the reins of the monarchy by the regency council following the death of King Ferdinand, all countries will be obliged to recognize their diplomatic representatives to the boy King Mihai (Michael).

This is without precedent in Europe in recent times, the only analogous case being in Spain during the minority of Alfonso. The presentation of new credentials will enable many foreign emigres to meet the boy sovereign for the first time.

It is expected that instead of addressing the juvenile ruler "my son and good friend," which has been the time honored salutation of the President of the United States in letters of credence, President Coolidge will have to coin a new phrase for his king, or address the regency which will rule until the boy king is 18, collectively.

Moved by U. S. Envoy's Prayer.  
Two incidents of King Ferdinand's funeral are the talk of all Rumania. One is the spontaneous act of William & Catherine, American minister to Rumania, in kneeling beside the monarch's grave and offering a prayer.

The act was all the more conspicuous because none of the other diplomats knelt, merely passing the coffin. The members of the Rumanian cabinet, all of whom were present, were deeply moved by Mr. Culbertson's act.

The other incident involved Queen Marie. While the clergy were chanting the solemn words, "farewell forever," over the king's body, the queen turned toward a pillar for support and wept aloud. Fearing she was about to collapse, a palace officer brought a chair and smelling salts, but she refused them and insisted that the chair be given to her daughter, Queen Marie of Yugoslavia, who is seen to become a mother.

Girl, 8, Dies of Burns Suffered in Bonfire  
(Picture on back page.)  
Mary Drus, 8 years old, 2421 South California avenue, died in St. Anthony's hospital last night of burns suffered earlier in the day when her clothing caught fire while she and several other children were burning some rubbish on a bonfire in the alley at the rear of her home.

## COSGRAVE LAUDS U. S. FOR HONOR SHOWN IRELAND

Dublin All Agog Over New Envoy.

BY JOHN STEELE.

(Copyright 1927, By The Chicago Tribune.)  
DUBLIN, July 26.—All Dublin is agog today in anticipation of the ceremony tomorrow when Frederick A. Cosgrave, American minister plenipotentiary and first diplomat accredited to the Irish Free State, is received officially by the Irish government.

The Free State government has spared no pains to make the occasion an impressive mark of appreciation of the recognition by the world's greatest nation of the world's youngest nation.

The procession will traverse the city from the American consulate in Merrion square to the vice regal lodge in Phoenix park, where Mr. Sterling will present his letter of credence to Timothy Healy, governor general of the Irish Free State.

Cosgrave Gives Message.  
President William T. Cosgrave today gave the following message to the American people through The Tribune correspondent:

"President Coolidge's act in appointing a minister to the Irish Free State is not merely adding another stone to the great edifice of world peace and mutual understanding which he and his illustrious predecessors have built with such pride and care. It is a formal acknowledgment of the bond more than two centuries old which has joined our peoples in kinship and the closest sympathy. It is a full recognition of our co-equal status within the group to which we belong as well as within the general community of nations.

"We are proud to receive such recognition from the American people and welcome their envoy today as the bearer of a message of good will and friendship which will traverse the city from the American consulate in Merrion square to the vice regal lodge in Phoenix park, where Mr. Sterling will present his letter of credence to Timothy Healy, governor general of the Irish Free State.

Generations of Americans have followed the history of our country with ever ready sympathy. At the moment of receiving the official envoy of the United States to the Irish Free State, I wish to do homage to their memory for the share they have had in bringing our country's aspirations to fruition.

"It is our fervent hope that tomorrow's ceremony will inaugurate an era of the closest friendship between our governments and peoples, and we also believe and hope it will mark a new effort in the cooperation of the small states with the great in the cause of universal peace."

New Laws for Free State.  
Undimmed by the recent assassination of Kevin O'Higgins, vice president of the Irish Free State, the government is going ahead, establishing order and stability in Ireland.

President Cosgrave told The Tribune correspondent today that the government has introduced three bills in the dail eireann, the first of which, the public safety bill, was passed today. This gives the government extraordinary powers to suppress rebellions, dispense with trial by jury in certain cases, and exile disturbers.

## EDNA HIERMAN WINS IN COOK COUNTY GOLF

Beats Mrs. Barnes, 7 and  
6, in First Round.

BY HARLAND ROHM.

As a matter of record, Miss Edna Hierman of Edgebrook, present holder of the title, won her first match yesterday at Jackson park in the Cook county open tournament by defeating Mrs. R. Barnes of Lincoln park, 7 and 6.

By virtue of her fine work in the qualifying round, Miss Hierman was picked by the "talent" to advance against her more experienced opponent, and the champion performed as expected.

Another favorite to win was Miss Florence Beebe of Lincoln park, who defeated Mrs. N. Schick of Marquette, 2 up. The young Lincoln park player who won the Illinois state public parks title last year was erratic at the start but rallied rounding the turn and matched home with a victory that had few thrills.

Some of the other players conceded a chance to win came through, but there were many upsets. The most notable, perhaps, was the defeat of Miss Virginia Wellman of Lincoln park by Mrs. Mary P. King of Marquette. The match led to go to the home green for decision. Miss Wellman held the state title last year and was runner-up this year to Miss Beebe.

Another match that caused arching of the eyebrows was the defeat of Mrs. Oscar Horn of Marquette, present city public parks champion, by Mrs. G. A. Connell of Lincoln. This contest also went to the last hole and the medal

## East Siders Take Locker Room Title at Bob o'Link

East side and west side battled all round the club at Bob o'Link for the championship of the locker room yesterday, and the west section got sweet revenge for the trimming given them in the last contest.

Nineteen of the west side crew average 73-10 net, while 23 of the east side average 80-10, giving them the Bob o'Link medallion until civil war again breaks.

C. T. Knapp of the east side did noble work to bring down his team's average, shooting 43-47-40 which

was the best of the day. Mrs. Connell had 38-42-51, and Mrs. Horn 43-41-51.

By defeating Miss Grace Saunders of Marquette, a veteran in public parks events, Miss Marquette Silbeck of Edgebrook loomed as the proverbial "unknown quantity" in the tournament. Miss Silbeck, a young, sturdy player with a remarkable drive, defeated the former Marquette champion, 3 and 2.

Mrs. Fitzgibbon's Victor. Mrs. F. S. Fitzgibbon and Mrs. Paul Matthews of the home club played the match with the thrills. At the eleventh hole Mrs. Matthews was 3 down and counted out by the gallery. The spectators, however, revised their estimates when Mrs. Matthews won the next three holes in par and took the lead at the sixteenth after encountering serious trouble. Her second shot found lodgment at the foot of a huge elm. The only way she could hit the ball was to switch to a southpaw position. This proved ineffective, as she gained only a couple of yards. She won the hole, however, in par after a fine recovery. But at the seventeenth she missed a fifteen inch putt for a half. Mrs. Fitzgibbon took the match at the last hole, where she played par.

Mrs. Schick, appearing in her second major event, gave Miss Beebe's partisans a scare by winning the second

with his handicap, 23, cut his score 67 for low net prize. George Cook got the similar prize for the west side by scoring 41-45-84-115-69.

W. M. Collins Jr. had low gross, 53, with a five handicap for 71.

Some of the best golfers were off form, including John Irvin, president of the club, who didn't help the west side toward victory very much, trailing his side with 102-12-41. But on the other hand east side had Bert White, winner of the Hullabaloo, who shot 95-13-23 and W. H. Hurd, 135-20-105.

A few days ago when we were exploring lakes along the Michigan-Wisconsin boundary line, we chatted with George Nelson, a 67 year old timber cruiser, who has tramped every foot of the boundary country and not so many years ago cruised from the upper peninsula to Hudson bay and back while on a timber hunt.

George told us about a wilderness lake above the boundary line, which for many years was used by the Indians as the stage for tribal dances and councils, and even to this day the site of the dance ground can be seen on the shore of the lake. After we had booked George to guide us to this outdoor "dance hall," we asked him about the fish in the lake. He told us that unfortunately they were large mouth bass, as real Oswego or black bass had not been planted in the lake.

Oswego, straw bass, strawberry bass, large mouth bayou bass, gray bass, black bass, and "trout"—they all are the same species, depending upon the locality in which you are fishing. So don't let the old timers in the fishing country fool you.

## Varied Names for Bass Fool Many Anglers

BY BOB BECKER.

If you go up north for a fishing trip this summer and the old timers tell you that they have Oswego bass but no real black bass in the lakes tell 'em to write another ticket. Contrary to the belief of many north woods fishermen, the Oswego or large mouth bass is a real bass.

This question of names for the different species of bass is a real puzzle. Different localities generally have different names for the large mouth.

A few days ago when we were exploring lakes along the Michigan-Wisconsin boundary line, we chatted with George Nelson, a 67 year old timber cruiser, who has tramped every foot of the boundary country and not so many years ago cruised from the upper peninsula to Hudson bay and back while on a timber hunt.

George told us about a wilderness lake above the boundary line, which for many years was used by the Indians as the stage for tribal dances and councils, and even to this day the site of the dance ground can be seen on the shore of the lake. After we had booked George to guide us to this outdoor "dance hall," we asked him about the fish in the lake. He told us that unfortunately they were large mouth bass, as real Oswego or black bass had not been planted in the lake.

## Jockey Bollero's Contract May Be Sold for \$15,000

The contract on Jockey J. Bollero may be sold to a widely known eastern turfman within the next few days for \$15,000 it was reported at Lincoln Fields yesterday. Bollero has been the riding sensation of the season in Chicago and is fighting it out for the championship with L. Hardy.

These Craigavon colts in the Camden stable haven't been able to score a victory here. About the best of them to show under colors was Dr. Rankin. He was third in the second race yesterday.

A lot of parley players had Norwester and Norwester hooked up yesterday, but they didn't get any action after Norwester ran last in the opening race.

There will likely be some lively bidding in the sales ring at Lincoln Fields Saturday for the colt Golden Racket, which is to be sold with fifteen others comprising the thoroughbred stock in the estate of the late William Perkins. Golden Racket has won his last two starts here and performed the job impressively in each instance. He is son of Golden Maxim-Brightstone.

# "David Belasco's advice impressed me"

Walter J. Leather is telling Joyce Todd as they start for an all-day motor jaunt through the Berkshires.

David Belasco, dean  
of the American Theatre,  
writes:

"The voice is to the actor what the chisel is to the sculptor. He must beware of dulling its qualities. Naturally I am vitally concerned about the voices of my players, so I always advise the one cigarette that I discovered many years ago that does not impair control of the subtle vocal shadings or cause huskiness or harshness. I mean the 'Lucky Strike.' It is the player's best friend."

David Belasco.

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

# The real WEST

INTO a saddle at dawn with an inviting trail ahead—the majesty of cloud-draped mountain peaks—the solitude of cool forests—game fish that give you a thrilling battle in swift waters! Then another day dawns in a burst of glory and you ride on to see new sights—always new sights among the mountains, the lakes, the deep canyons and the swift rivers of Idaho.

There are other pictures to delight the gaze of visitors—great dams that create reservoirs to control the flood waters—engineering feats the sheer immensity of which will leave a profound impression upon you... billowy fields of golden grain... orchards of ripening fruits... charming cities nestled among the hills and along the banks of rivers!

You can tour Idaho in comfort. Splendid camping grounds and modern hotels, and yet, "just over the hill" is the lure of peaceful hours in the solitude and grandeur of the great outdoors—the real West!

If you plan to visit Yellowstone, Salt Lake or the Pacific Coast this summer, you should include a trip over Idaho's newly completed North and South Highway—the new gateway to the Northwest.

## WHEAT MOVES UP ON RUST REPORT AS CORN DECLINES

BY CHARLES MICHAELS.

Wheat and corn reversed yesterday their action of Monday, wheat advancing sharply, and closing at nearly the highest point, with gains of 1 1/2 to 2 1/2 c, while corn, after an early bulge, weakened and closed unchanged to 1/2 c higher. Oats were unchanged to 1/2 c higher, distant futures leading, and barley and rye finished 1 to 2 c higher, the latter on July.

Trading was more active in wheat and rye, and less so in corn. Sentiment in wheat became more bullish, and the corn was divided, while oats and rye seemed to have more friends. North-western wheat markets were decidedly stronger than Chicago, Minneapolis advancing 3/4 to 5/8 c, Kansas City up 1/2 to 1 1/2 c.

A decided change for the better came to the wheat trade, with black rust reports more numerous from the north-west, many of them being accompanied by buyers orders.

Heavy buying by shorts.

Hedging pressure from the southwest was readily absorbed early as Liverpool showed strength and a fair advance. Heavy buying by several of the largest shorts, in addition to new buying by commission houses absorbed the offerings and carried prices for September wheat from \$1.17 1/2 to \$1.19 1/2. Eastern interests who bought on the recent decline, as well as some of the earlier buyers of the day, took profits, and the close was at \$1.19 1/2. December wheat came in for more support, moving up 1/2 c, to \$1.14 1/2 with a finish of \$1.13 1/2, to \$1.14. July was under pressure credited to leading longs and cash interest, but reached \$1.15 1/2 with the close 1/2 c less.

Corn Lost Its Bulge.

Crop reports on corn were the same as of late, but the market failed to get the buying support to conspicuous on Monday, although values moved up 1 to 2 c with a fair reaction due to profit taking. The trade was materially lighter, or than on Monday when sales of futures reached \$2,424,000 bu, as compared with \$3,856,000 bu. July closed at \$1.01 1/2 with September \$1.06 1/2 to \$1.09 1/2, and December \$1.09 1/2 to \$1.09 1/2. Local traders sold rye early and bought it later when wheat advanced. It closed at about the top, with July \$1.09 1/2, September \$1.09 1/2 to \$1.09 1/2.

## EUROPEAN CORN BORER FOUND IN INDIANACOUNTIES

Fresh infestation of the European corn borer in certain townships of Noble, Allen, and Whitley counties in Indiana has been positively identified, according to the announcement by Frank Wallace, state entomologist. L. E. Patch, Sanitary, O. government inspector, made the identification of the worms, according to Wallace's announcement. Thirty government scouts are going through the affected areas and adjacent fields, looking for the pest. Quarantine lines are being made ready, and when green corn from the district starts to market it will be thoroughly inspected to prevent further spread of the moths when they come out later in the year. Little can be done at this time, Wallace said.

## BUTTER AND EGG FUTURES

Butter futures were active and firm with prices 1/2 c higher than Monday's low point, largely on short covering. Total sales were 1041 cars. Bids for November delivery started slightly lower but advanced 1/2 c and closed with a net gain of 1/2 c. Total sales were 50 cars. Prices follow:

# GEN. MOTORS AND U. S. STEEL PROVE BUSINESS IS GOOD

**BY O. A. MATHER.**

The two giant American industrial corporations, General Motors and United States Steel, have both reported their earnings for the first half of this year. They left no doubt that business has been fairly good. The General Motors corporation reported a substantial gain over the first half of last year. Earnings of the United States Steel corporation were only slightly lower than last year's.

By outstripping the steel corporation in earnings General Motors now becomes the earnings corporation of the world. Its earnings have been surpassed, except by the steel corporation during war time in 1916.
